

BLACK & WHITE CATALOG

Sonia Campbell Hamilton[®]

WELCOME!

The Sonia Campbell's art work catalog is formed in 3 parts: first, 20 paintings that took part of the first art exposition in the Corridor called El Corredor del Arte of Televisa Monterrey in this year.

The second part is formed by the photography catalog, in which is included a visual proposal about 20 photographs with different scenes including the last type of photographs called 'selfies' seen in a deepest view.

And last, in the last part, the résumé of the artist.

We expect through this collection you can have a wonderful experience with each of the creations and photographs that form this work.

Exhibitions: painting

THE SILENT LIFE OF THE OBJECTS

EXPOSITION PROJECT FOR EL CORREDOR DEL ARTE, TELEVISA, MONTERREY
FEBRUARY, 2015

In every art exposition the artist seeks in a visual language to show that parallel world that is behind the visible things through different scenes that try to represent the *'silent life of the objects'*.

In these creations of the first part, the artist seeks to define the language of the animated and unanimated things trying to show in them a proper capacity of provoking different emotions, shades of *acrylics, gouaches, color pencils, oils and slight lights of color chalks on paper*.

In this section will be shown creations that they note for many types of shades and lots of multiples *impressionists, abstracts, surrealists and conceptual forms*.

Photography

The artist Sonia Campbell always seeks to show in a visual language the contemporary and creative sides of all realities from different perspectives, through the art of the photography too.

This catalog is formed by a collection of different photographs in which they are captured through a mysterious lens in the daily life scenes of the world that surrounds her.

ROCKS

Digital Photography. 2015,
Mexico.

The Project of
Photography borns like a
try to seek that identifies
the city,

but that it not corresponds
to the institutional image
built for the traveller.

The purpose was to look
up all those existent
elements that in their near

condition to the everyday
life disappear in a
magnificent image turned
into invisibles pictures.
